NOTICE!
Owing to continued advances in, and present high markets
ruling on nearly all important raw materials, entering into
the manufacture of high grade paints and varnishes, we
have been obliged to put advanced prices on nearly all Sher-
win-Williams products. Inasmuch as we intend to furnish
all Sherwin-Williams paints and varnishes at the prices pre-
vailing last year we trust that the disposition we have
shown toward our loyal trade may be reciprocated by an in-
creased volume of business from them. With best wishes
for a prosperous New Year, we remain,

Teeth of Chamberlains.
Have you ever noticed that every
chambermaid who has been taking
care of the hay and feathers for a
number of years is usually devoid of a
few teeth of the upper "case"? Vet-
erian chambermaids can seldom show
a full set of upper teeth. The absence
of the fives is explained as follows:
by a downtown dentist: "The teeth of
the maids which I replace with arti-
ficial ones are pillars of support. They
are constantly used in putting on pil-
lowcases and are not strong enough to
stand the strain. Their work is a con-
stant wear and tear on the teeth."
—Pittsburg Dispatch.

**ICE Cream
and Cake**
Do you eat cake with your ice-cream?
Then you want something light;
I make a Sponge Cake that I know
will please you at first sight.
'Tis not a cake that dries up quick
When one or two days old;
Because the best ingredients
Its moisture helps to hold.
With Jellies and preserves I know
This cake will surely please;
'Tis rich and wholesome and it will
Surely digest with ease.
Whitcomb's Sponge Cake, just try a
loaf
And you will prove I'm right;
There's nothing better for a lunch
When you're late home at night.
